

Liberty 5 Oxygen Concentrator

Provides oxygen therapy to a patient at substantially higher concentrations than available in ambient air. The Liberty 5 is safer, less expensive, and more convenient alternative to liquid or tanks of compressed oxygen. The Liberty 5 Starts at \$1118. Leasing arrangements are available.

Product Description

- Provides up to 5 liters per minute oxygen flow
- Integral timer allows you to select 30, 60, 90, or 120 minutes of continuous operation.
- Remote Control
- An optional O2 sensor assures high purity operation.
- A spring mounted compressor means quiet, reliable operation. Easy access to service.
- Top handle for carrying.
- EZ Access filters are quick changing.
- Fully interchangeable with the Liberty 10.
